

INTRODUCTION

To Students: To help plan your educational program, this catalog includes a detailed listing of the graduation requirements and a four-year planning chart. Course offerings for each department, including credits and prerequisites, are described in this handbook. After studying the requirements and courses, fill out the four-year chart and discuss it with your parents and your counselor. Together you can design an academic program that meets your goals. Please keep this handbook for reference during your high school career.

To Parents: We ask that you, as parent or guardian, take an interest in your student's high school experience. Please review and sign your student's course selection form. **Visit Leyden's website at www.leyden212.org**
