

Greetings!

My name is Lori Parthimos and I am your child's case manager this year! Even though we are remote learning, I am going to be working closely with you and their team to provide the best experience possible for your student.

I have been teaching for over 20 years and have two Master's degrees in education. I love teaching and have been excited to explore the new avenues that remote learning has brought to education.

While it is exciting, I know there is also anxiety and concern because it is new and different. I want to assure you that we are all working hard here at Leyden to ensure that accommodations, related services, like social work and speech, and all of the extra support students need are available to help our students be as successful as possible. While those might look differently in this moment, they will be there. While we work out those exact details, please reach out to me if you have a concern. In the meantime, we will continue to look for new and better ways to serve each student.

Our best resource is each other. Please reach out to me if you have any specific questions or concerns, comments, or would just like to say hello! I do want to hear from you and get your feedback and input, because I do know that you know your child best.

I look forward to working with your student and getting to know you and your family!

Lori Parthimos  
Case Manager  
Special Education Teacher  
West Leyden High School
